This Notice of Privacy Practices describes how we may use and disclose your protected health information to carry out treatment, payment or health care operations and for other purposes that are permitted or required by law. It also describes your rights to access and control your protected health information. "Protected Health Information" (or "PHI" for short) is information about youth receiving services (hereinafter "you"), including demographic information, that may identify you and that relates to your past, present or future physical or mental health or condition and related health care services including payment for your health care.

We are required by law to maintain the privacy of your PHI and to provide you with this notice informing you of our legal duties and privacy practices with respect to your PHI. We are also required by law to notify affected individuals following a breach of security regarding their PHI. We are required to abide by the terms of this Notice of Privacy Practices. We may change the terms of our notice at any time. All new notices will be effective for all PHI that we maintain at the time of the update. Upon your request, we will provide you with any revised Notice of Privacy Practices at the time of your next appointment. We will also post the revised notice in our office and on our website.

A. Confidentiality of Your PHI. Your PHI is confidential. We are required to maintain the confidentiality of your PHI by the following federal and New Jersey laws.

1. The Health Insurance Portability and Accountability Act of 1996 ("HIPAA"). The Department of Health and Human Services issued the following regulations: "Standards for Privacy of Individually Identifiable Health Information". We call these regulations the "HIPAA Privacy Regulations". We may not use or disclose your PHI except as required or permitted by the HIPAA Privacy Regulations. HIPAA Privacy Regulations require us to comply with New Jersey laws that are more stringent and provide greater protection for your PHI.

2. New Jersey Confidentiality Laws. New Jersey laws may provide greater protection for your PHI than the HIPAA Privacy Regulations. For example, we are not permitted to disclose or release PHI in response to a New Jersey subpoena. Also, any information acquired by a licensed psychologist in the course of your treatment that is in our PHI is privileged under New Jersey law and we may not release this information without your authorization or court order. We will comply with the New Jersey laws that are more stringent than the HIPAA Regulations and provide greater protection for your PHI.

3. Confidentiality of Drug and Alcohol Abuse Records. For individuals whose records include information relating to drug or alcohol abuse or dependency, New Jersey laws provide more protection for your PHI than the HIPAA Privacy Regulations. We will comply with the federal and New Jersey laws that are more stringent than the HIPAA Privacy Regulations and provide greater protection for your PHI.

4. Confidentiality of HIV-Related Information. New Jersey laws provide greater protection for PHI related to HIV. We will comply with New Jersey laws that are more stringent than the HIPAA Privacy Regulations and provide greater protection for your PHI.
